

# THE PIOCHE WEEKLY RECORD.

VOL. XLVI.

PIOCHE, NEVADA, THURSDAY, SEPTEMBER 3, 1896.

NO. 22.

## AN APPEAL FOR FUNDS.

### Contributions Asked For The Silver Party National Campaign.

The fight is on and money is needed by the National Committee of the Silver Party to pay the expenses of campaign speakers and to send out silver literature. The Silver Party has no Mark Hanna to raise millions from the plutocrats of the country by a simple wave of the hand. The money to carry on our fight must come from the plain people of the country. It is not wanted for corruption purposes, or for the purpose of hiring speakers, as all who ask for anything more than expenses are referred to Mr. Hanna, who is known to be bidding high for compensated talent. Every voter in Nevada should be willing to contribute a dollar at least to the cause, and many should contribute more.

The editor of the Silver State, as a member of the Executive Committee of the National Silver party, has been asked to lay this matter before the good people of Nevada and ask them to contribute as liberally as their means will warrant. Every dollar so contributed will be sent to National Treasurer W. P. St. John, and be handled by the National Committee for the purpose above mentioned. The other side will have a fund of many millions at their disposal, but if every silver man in the United States will do his duty at this time we will have sufficient funds to do the necessary work of education. The Silver State will also publish from day to day the name of each contributor and the amount so contributed.

I will also ask that Silver or Democratic committees in each county in the State to take this matter up and place it properly before the people. I would also ask each Silver or Democratic paper in the State to publish this notice, so that every person will be given a chance to give their mite to the cause of Nevada and humanity. If so desired remittances can be made to me or direct to Wm. P. St. John, National Treasurer, Hotel Bartholdi, New York City. We have a gallant leader, our cause is just, the issue is made; victory or defeat will soon be upon us, and every friend should do his duty by giving all the assistance he can afford.

GEORGE S. NIXON,  
Winemucca, Nevada.

### Nominations by Petition

Nominations for office, made by petition without the action of any political party are governed by the provisions of section 4 of the Australian ballot law which reads as follows:

Sec. 4. A candidate for public office may be nominated otherwise than by a convention in the manner following: A certificate of nomination containing the name of the candidate to be nominated, with the other information required to be given in the certificate provided for in section three of this Act, shall be signed by electors residing within the district or political division for which candidates are to be presented equal in number to at least ten percent of the entire vote cast at the last preceding election in the state, district or political division for which the nomination is to be made; provided, that such certificate shall not be valid unless signed by five voters. Said signatures need not all be appended to one paper, but each signer shall add to his signature his place of residence. One of the signers of each such certificate shall swear that the statements therein made are true, to the best of his knowledge and belief, and a certificate of such oath shall be annexed. Such certificate of nomination shall have the same effect as the certificate of nomination made by a party convention.

Nominations made under the provisions of this section must be filed with the county clerk not more than 50 days nor less than 30 days before the day of election. This will permit nominations to be filed as late as Oct. 4th and not until that time will the ballot be fully made up.

### We're Not Hildebound.

While the Record is supporting the principles of the Silver party on general lines, let it be understood that on all local matters its columns are open for legitimate purposes to the adherents of other factions. We believe that nearly every local and county officer will be elected this fall more on account of his personal fitness for the position he seeks than from his affiliation with any particular party or local organization. Of course the campaign will be worked for all its worth; it has already been sprung in several instances, in fact, and while this species of political warfare frequently succeeds, it never should, in a community as small as ours, where with but little trouble the truth or falsity of any given charge with regard to any particular man, can be run down in a very short time; and when a lie of this kind is nailed there should, in justice, be a retroactive sentiment against the individual for whose benefit it was circulated. We have a certain amount of legitimate advertising space left, and those who believe in newspaper advertising can secure it.

## Equal Suffrage

Mrs. J. R. Williamson, President of the Nevada Suffrage League, arrived last Thursday evening on the Geyer stage. She was expected, and early the following morning arrangements were made for a lecture to take place that Friday, evening at Thompson's Hall. Owing to a breeze blowing, no bonfires were lighted, but a choir of eight voices was in attendance and rendered some national airs with good effect.

A good attendance greeted Mrs. Williamson when she was introduced to the audience by Mrs. N. P. Dooley, who had been elected Chairman for the occasion, and then for an hour and a quarter the lady entertainingly and instructively addressed the house on the subject of equal rights.

Starting with the proposition that Eve was created as an helpmate to Adam, she argued that all history showed how well woman throughout the whole world, had filled the place of a helpmate to man, illustrating her argument with citations of individual instances, and frequently eliciting applause. She argued that a proper construction of the constitution of the United States conferred the right now contended for, and commented with some severity on the fact that political necessity should justify the enfranchisement of 7,000,000 negroes, ignorant and but half civilized, and denying the same privilege to the women of the country.

At the conclusion of the meeting arrangements were made for organizing a local suffrage branch here, and on Saturday afternoon the organization was effected with six members.

On Sunday evening Mrs. Williamson addressed the public on the Growth of The American Nation, this time speaking to a much smaller house, but handling her subject in equally good style and securing close attention.

On Monday the lady went to Panaca, where she was announced to speak that evening. There she was well received, addressed a full house, and at the conclusion of the meeting a Panaca branch of the Suffrage League was organized with a membership roll of thirty five names, which were secured then and there. This is the best and largest local organization Mrs. Williamson has effected on her present tour, and she has been out from her home in Austin, since the 18th of July.

The lady is well pleased with the reception accorded her in Lincoln, and has made many friends here.

## For Sale.

## THE POOR EDITOR AND POLITICS.

Prospective office seekers can get a few pointers from the following, which is composed of a good deal more of truth than poetry. Editors have made fortunes for more politicians than they have ever made for themselves. It is frequently the case that after doing hard work for his party, the editor gets only the glassy eye and the cold, marble heart. As a result some get tired and quit, while others labor on despite the selfishness of mankind, relying on the reward of the hereafter for editorial labors well performed in this world. One of the kind that has been fooled and quits, writes in the Press of Louisiana, Mo., as follows:

An exchange came to us last week with a blue mark around an editorial heading a candidate for office. A printed slip pasted to the paper kindly requested us, if we said anything about the candidate, to send him a marked copy of the paper. We didn't do it. We ain't going to do it. We ain't saying a word unless the cash is in sight and we can see the Goddess of Liberty on one side of the dollar of our duds and count the tail feathers in the American Eagle on the other. In times past we have given away columns of space and reams of paper and great gob of ink in a political turn, with nothing but the privilege of wading through the mud behind the band wagon in a torchlight procession and spilling oil all over your only coat and getting shot in the eye with a Roman candle as our reward. But times have changed. Everything has changed except our pockets. There is no change there. We are Democrats but we ain't no pack mule to carry a candidate into office and then get the cold shoulder. And perhaps the cold mutton after the election. Our enthusiasm has gone. It has leaked out through our elbows and seeped through the apertures in our pants. Glory is a good thing, but cold cash is better. Campaign shunder will no longer reverberate through these columns except at such a per thunder. Our campaign roster has to be fed, and wherever shall we feed him? He's lost all his tail feathers from his last campaign and needs some extract of gold or silver right now. Our tow line is sagging in the middle and unraveled at the ends. Exchange.

## The Candidate's Hymn.

My office, 'tis of thee,  
Sweet place of rest for me,  
Of thee I sing!  
Place that my fathers filled;  
Place where much time is killed—  
Sweet place for which I'm billed,  
Of thee I sing!  
I love thy cozy nooks—  
All thy big salary books,  
Thy pay rolls long;  
All thy cool hours of ease,  
All thy red tapestries;  
Come, now, my soul to please—  
Come right along!

The Pioche Bryan and Sewall club held a meeting at the courthouse last Saturday evening as announced. A constitution and by-laws were adopted, several new names added to the roll of membership; and later on a series of meetings will be held. The organization, unlike that of the same name at DeLamar, is nonpartisan, and any voter willing to support the Democratic nominees for president and vice president, is eligible to membership.

The Boise Statesman, one of the leading Republican papers of Idaho, has a guarantee from the goldbugs of \$20 for each subscriber lost by its endorsement of the gold platform and McKinley. It is said that the Statesman has lost about 40 per cent of its subscribers and patronage since its flop into the goldbug camp.

Justice Bigelow has written Hanna that the Republicans will carry Nevada and the Sacramento News says: A man is whom hope springs so eternal at that, is as confidently serene as the hidecraiser who, having fallen from the roof of a sky-scraping building, gathered himself together when within ten feet of the ground and exclaimed, "now, here's for a hard bump."

The Republican Party organization will be maintained in Lincoln this fall, looking of course to future campaigns. Until three days ago it did not appear that enough of the old party was left hereabouts to make up the five names required for membership in the State Central Committee, but they have been found, though they are not all McKinley supporters.

Charley Wilson, who escaped from the Pioche jail, was at San Creek ranch on Sunday, the 16th, of Aug., and stayed all night there. He told the boys how he looked the Sheriff in the jail and made his escape. He struck out for Idaho when he left the ranch. It is more than probable that he passed through Elko about two weeks ago and stayed all night—Elko Independent.

The following law will be introduced in the next Congress by request of the National Bureau of Reform, to defend the families of the whole country against the lax divorce laws of the territories: "No divorce shall be granted in any Territory for any cause which shall have occurred out of the Territory, unless the party applying for the same shall have resided within the Territory for one year next preceding the application."

A Safford outcropping table is in use at the Summit mill which is said to work better on the Old Timer ores than the regular true vanners, catching nearly all the heavy particles contained in the ore.

Ernest Rice, the thirteen year old son of Mr. and Mrs. Henry Rice of Spring Valley, died early last Friday morning of congestion of the brain. The little fellow some months ago was effected with the measles and before he was entirely well, was out in the hills, got wet took a severe cold and the brain trouble is supposed to have resulted from the exposure.

The case of Samuel Davis, of San Francisco, against the Board of Commissioners of this county brought to compel the Board to continue the levy of the 45 cent interest tax, provided for in 1873, and which has not been levied for the past seven or eight years, and to pay \$7000 in bonds and interest coupons held by Davis, has been sent down by the Supreme court for further action in this court. The application was made here last Spring, it will be remembered, and the plea of statute of limitations was made against the claim, which was sustained. The full decision of the Supreme court has not been received yet so we do not know whether we are required to meet payment of the interest only, or of both interest and principal.

We hope to print next week, the full text of the Parity of Elections bill. It occupies some five columns of space and needs to be studied by all. The Carson Appeal says of it that a prospective office seeker took it up, studied it out and concluded he stood a better chance of getting into the State Prison than into the office he wanted, so abandoned the proposition.

The aspirants for county office are forming into line. Ten days more and we will know more to a certainty how the local fight is to be made. Last Sunday notice was telephoned here from DeLamar, to certain aspirants for office, to be at DeLamar the following day. They went and it is said a fusion of the Silver party, Democrats and Populists was to result. If so the local committee of neither of the parties were summoned to attend, hence it would appear to be some new organization which is being formed. Some plan of action was agreed upon, and a ticket from top to bottom also, but whether the names will be presented by convention or by petition does not seem to be certain, as both courses have been mentioned, one being that a convention would take place here on either the 17th or 19th of this month. Proper notice of this will doubtless be given as indeed it should be, since it is a matter in which the voters are generally concerned.

## Lost.
